

News Release from Topos Technologies

## **LabSpeed™ Smart Analyzer Vision Data Management software provides advanced research and reporting for the SPECTRO ARCOS™ optical emission spectrometer.**

Topos Technologies has entered into an OEM agreement with SPECTRO Analytical Instruments to provide results management for SPECTRO's new ARCOS™ optical emission spectrometer. LabSpeed SPECTRO Smart Analyzer Vision™ software, based on LabSpeed™ instrumentation data management technologies, provides an advanced platform for research, reporting, charting, exporting, and LIMS connectivity.

Marlborough, MA – May 16, 2007 – Topos Technologies announced the release of LabSpeed SPECTRO Smart Analyzer Vision Data Management software, a version of LabSpeed™ specifically customized for SPECTRO ARCOS™ and GENESIS™ optical emission spectrometers. With advanced charting and compliant reporting capabilities, analysts can easily access results saved by the spectrometer and design one-click solutions to optimize daily research, reporting and exporting requirements.

A member of the AMETEK Materials Analysis Division, [SPECTRO](#) is one of the worldwide leading suppliers of analytical instruments, employing optical emission and X-ray fluorescence spectrometry technology, used for the elemental analysis of materials in industry, research and academia.
